1 Background

Organisation and operations

These consolidated interim condensed financial statements include the financial statements of OJSC “Asian-Pacific Bank” (the Bank) and its subsidiaries (together referred to as the Group).

The Bank was established in the Russian Federation as a closed joint stock company in 1992 under the name Amurpromstroybank as a successor of Promstroybank of USSR which was founded in 1929. In 2006 the Bank was reorganised from a closed joint stock company to an open joint stock company and renamed to Asian-Pacific Bank by decision of the shareholders. On 7 May 2010 LLC “PPFIN Region”, being a common majority shareholder for OJSC “Asian-Pacific Bank”, OJSC “Kamchatprombank” and OJSC “Kolyma-Bank”, merged the operations of these entities and therefore granted full control over OJSC “Kamchatprombank” and OJSC “Kolyma-Bank” to OJSC “Asian-Pacific Bank”.

The principal activities of the Bank are deposit taking and customer accounts maintenance, lending, issuing guarantees, cash and settlement operations and operations with securities and foreign exchange. The activities of the Bank are regulated by the Central Bank of the Russian Federation (the CBR). The Bank has a general banking license, and is a member of the state deposit insurance system in the Russian Federation.

The Bank has 284 (31 December 2013: 316) offices from which it conducts business throughout the Russian Federation including a head office, 4 regional branches, 50 additional offices, 227 operational offices and 2 operational cash boxes. The registered address of the head office is 225, Amurskaya Street, Blagoveschensk, 675000. The majority of the assets and liabilities are located in the Russian Federation.

As at 30 September 2014 the following shareholders held the issued shares of Open Joint Stock Company “Asian-Pacific Bank”:

LLC “Expo-Leasing”	Russian Federation	Leasing	100%	100%
CJSC “Mortgage agent APB”	Russian Federation	Mortgage agent	see below	see below
CJSC “Mortgage agent APB 2”	Russian Federation	Mortgage agent	see below	-

On 1 October 2010 100% of the shares of LLC “Expo-Leasing” were acquired by the Bank.

LLC “Expo-Leasing” was registered in 2002 in Russia. Its head office is in Moscow and it has 13 branches (31 December 2013: 13) comprising a head office, 1 regional branch and 11 separate offices.

CJSC “Mortgage agent APB” and CJSC “Mortgage agent APB 2” (MA APB and MA APB 2) are structured entities established to facilitate the Bank’s issue of mortgage backed securities (refer to note 26). These entities are not owned by the Group. Control arises through the predetermination of the entities’ activities, having rights to obtain the majority of benefits of the structured entities, and retaining the majority of the residual risks related to the entities.

The average number of the Group’s employees for the 9 months ended 30 September 2014 was 4 504 (31 December 2013: 4 658).

Russian business environment

The Group’s operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation, which display emerging-market characteristics. Legal, tax and regulatory frameworks continue to be developed, but are subject to varying interpretations and frequent changes that, together with other legal and fiscal impediments, contribute to the challenges faced by entities operating in the Russian Federation. Current economic and politic situation, including situation in Ukraine and introduction of sanctions against the Russian Federation by particular countries and introduction of responsive sanctions against particular countries by the Russian Federation creates risks for operations conducted by the Group. Management of the Group believes that it takes all the necessary efforts to support the economic stability of the Group in the current environment. The consolidated financial statements reflect management’s assessment of the impact of the Russian business environment on the operations and financial position of the Group. The future business environment may differ from management’s assessment.

2 Basis of preparation

Statement of compliance

The accompanying consolidated interim condensed financial statements are prepared in accordance with International Financial Reporting Standards (IFRS).

These consolidated interim condensed financial statements are prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting. As a result, they do not include all of the information required by IFRS for a complete set of financial statements. Operating results for the 9 months period ended 30 September 2014 are not necessarily indicative of the results that may be expected for the year ending 31 December 2014.

These consolidated interim condensed financial statements should be read in conjunction with the complete consolidated financial statements as at 31 December 2013.

Basis of measurement

The consolidated interim condensed financial statements are prepared on the historical cost basis except that financial instruments at fair value through profit or loss and available-for-sale financial assets are stated at fair value, and buildings are stated at revalued amounts.

Functional and presentation currency

The functional currency of the Bank and the subsidiaries is the Russian Rouble (RUB) as, being the national currency of the Russian Federation, it reflects the economic substance of the majority of underlying events and circumstances relevant to them.

The RUB is also the presentation currency for the purposes of these consolidated interim condensed financial statements.

Financial information presented in RUB is rounded to the nearest thousand.

Use of estimates and judgments

The preparation of consolidated interim condensed financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3 Significant accounting policies

In general the accounting policies applied by the Group in these consolidated interim condensed financial statements are consistent with those applied by the Group in the year ended 31 December 2013.

Comparative information

A change in the presentation deposit insurance expenses was made during 9 months 2014 in order to better present the substance of the underlying transactions.

With effect from 1 January 2014, the Group presents deposit insurance expenses after net interest income. The Group previously presented deposit insurance expenses within other general administrative expenses in the consolidated interim condensed statement of profit or loss and other comprehensive income for the 9 months ended 30 September 2013. As a result, an amount of RUB 131 920 thousand has been reclassified from other general administrative expenses to deposit insurance expenses in the comparative consolidated interim condensed statement of profit or loss and other comprehensive income, to conform to the 9 months 2014 presentation.

30 Analysis by segment

The Group has seventeen divisions located in different regions of the Russian Federation, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately. For each of the strategic business units the chief operating decision maker reviews internal management reports on at least a monthly basis. The Group combined branches into three reporting units based on geographical location: Far East region, Siberia region and West region.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax as included in the internal management reports that are based on statutory financial information and that are reviewed by the Chairman of the Executive Board. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to others who operate within these industries.

32 Capital management

The CBR sets and monitors capital requirements for the Bank.

The Bank defines as capital those items defined by statutory regulation as capital for credit institutions. Under the current capital requirements set by the CBR, banks have to maintain a ratio of capital to risk weighted assets (statutory capital ratio) above the prescribed minimum level. As at 30 September 2014 and 31 December 2013, this minimum level is 10%. The Bank was in compliance with the statutory capital ratio as at 30 September 2014 and 31 December 2013.

The Group also monitors its capital adequacy levels calculated in accordance with the requirements of the Basel Accord, as defined in the International Convergence of Capital Measurement and Capital Standards (updated April 1998) and Amendment to the Capital Accord to incorporate market risks (updated November 2007), commonly known as Basel I.

The following table shows the composition of the capital position calculated in accordance with the requirements of the Basel Accord as at 30 September 2014 and 31 December 2013:

	30 September 2014	31 December 2013
	RUB'000	RUB'000

Revaluation surplus for buildings	1 618 659	1 620 178
Subordinated debt (unamortised portion)	2 639 787	841 131
Total tier 2 capital	4 071 433	2 431 482
Total capital	17 963 572	15 431 549
Risk-weighted assets		
Banking book	94 722 873	89 008 370
Trading book	10 530 211	11 640 081
Total risk weighted assets	105 253 084	100 648 451
Total capital expressed as a percentage of risk-weighted assets (total capital ratio)	17.07%	15.33%
Total tier 1 capital expressed as a percentage of risk-weighted assets (tier 1 capital ratio)	13.20%	12.92%

The risk-weighted assets are measured by means of a hierarchy of risk weights classified according to the nature and reflecting an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for unrecognised contractual commitments, with some adjustments to reflect the more contingent nature of the potential losses.

The Group is subject to minimum capital adequacy requirements calculated in accordance with the methodology of International Finance Corporation (IFC) established by covenants under liabilities incurred by the Group. The Group has complied with all externally imposed capital requirements as at 30 September 2014 and 31 December 2013.

Starting from 1 April 2013 the Bank calculates the amount of capital and capital adequacy ratios in accordance with CBR requirements based on Basel III requirements. The amount of capital and capital adequacy ratios were used by the CBR in 2013 for information purposes and not for supervision purposes.
